- YOUR PLACE
- FLESH AND BONES
- HAND UP
- MARCH
- FALLING
- OH OH OH
- ONE OF A MILLION
- GLIDER PILOT
- SAVED

# ALIVE

(m. zoe) all rights reserved

this one is for you  
to give you strength  
this one is for you  
to get along  
I've seen you  
and I felt that you don't  
I've been with you  
and I know where you're from

this one is for you  
to give you love  
this one is for you  
to stay above  
I've heard you  
I understood where you are  
I've been near you  
and I know about your heart

your heart  
your heart

you are, you are, you are alive  
you can start, you can start,  
you can start this time  
you are alive

this one is for you  
to let it go  
this one is for you  
to help it mend  
you've been patient  
just longing for more  
you've been silent  
but you're not for sure

for sure -  
anymore

can you feel  
your blood  
in your veins  
can you feel  
how beautiful it is  
can you let me  
watch you  
while you shine  
you shine

# FLOOD

(m.zoe) all rights reserved

I take a walk past that street  
I imagine someone watching me  
I try to keep the pace of my feet

somehow familiar as I touch the ground  
I raise my hands and then I turn around  
I see deep water rushing back to me

I don't know  
what comes and goes  
like flood and low tide  
to my side

I can't do anything but do what I do  
I lay the pieces until I get a clue  
what picture is looking back at me

how do you go on going straight ahead  
I try and keep in mind a thing you said  
what you give is coming back to you, you'll see  
you'll see

if I spread my arms  
will I be swimming  
if I lay back  
will I be swimming

# YOUR PLACE (m. zoe) all rights reserved

I am sitting on the back porch of your house  
looking at the fog clearing up above your flowers  
sipping on a tea you left beside my bed  
I am smiling while I'm thinking about what you said

we're doing alright  
we're doing alright  
we found ourselves here  
in spite of all  
we're doing alright

I won't ever keep you waiting for me  
I won't ever keep you waiting again

it's been a long time since I came to your place  
and it's been even longer since you touched my face

we've got the perfect bodies for our weary minds  
and every other thing we tried was just a waste of time

we're doing alright  
we're doing alright  
we found ourselves here  
in spite of all  
we're doing alright

I'm looking at the fog clearing up above your flowers

# FLESH AND BONES

(m. zoe) all rights reserved

you've got ears  
I've got arms  
you've got veins  
I've got palms

you've got a heart  
I've got a tongue  
you've got shoulders  
and I've got air in my lungs

you know my story  
I know your glory, you know mine  
I know your body, you know my worries  
I know it's time, I know it's time

you've got a mouth  
I've got feet  
you've got fingers  
I've got teeth

you've got tears  
I've got a song  
I've got darkness  
and you've got air in your lungs

you know my story  
I know your glory, you know mine  
I know your body, you know my worries  
I know it's time, I know it's time

# HAND UP

(m. zoe) all rights reservedzoe) all rights reserved

your hand down  
his hand up  
your heart watching  
all the way  
how he grows  
he grows

you look back  
but he's all here  
he will show you  
all the things  
you forgot

he will show you  
he will show you

the other day  
I saw you sleeping  
with your head next to his  
I thought that your face  
just looked like  
you were  
when you were  
well - you still are  
that little boy

when you were a boy  
when you were a boy

you just smile  
and he laughs out loud  
he's half as tall  
but he knows  
what it's all about

he laughs out loud  
he laughs out loud

# MARCH

(m. zoe) all rights reserved

I'm going to a big city I know  
I'm gonna be where my feet go  
right to where I want to  
cause I will be with you

I'm going right back all these years  
and singing till I reach your ear  
so you can hear me  
oh and you do  
you do

it's not so, so hard  
to be alone when I know we could start  
to do what we did not do long ago  
how come after all this time  
I want you more  
I want you more

I'm going to go through your streets  
straight to where you and I meet  
I'll kiss you like no one  
has ever ever kissed you

it's not so, so hard  
to be alone when I know we could start  
to do what we did not try long ago  
how come after all this time  
I want you more  
I want you more  
I love you more

# FALLING

(m. zoe) all rights reserved

can you take this  
could you hold it for a while  
can you take this  
could you bear it  
without lying  
could you wait  
while I'm trying

can you take this  
could you see and not be scared  
can you take this  
could you hold me  
without thinking  
and keep this day  
from fading

I'm falling  
I'm falling in love  
with what you can remember  
I am, I'm falling, I'm falling in love  
with how you say the things you want to  
and in love  
with all the things you wouldn't dare to  
you wouldn't dare to

can you take this  
could you let me be myself  
can you take this  
can you stand up  
without leaving  
could I give you  
what you need

I'm falling  
I'm falling in love  
with what you can remember  
I am, I'm falling, I'm falling in love  
with how you say the things you want to  
and in love  
with all the things you wouldn't dare to  
could you dare to

OH OH OH

(m. zoe) all rights reserved

I hear you landing  
on treetops above me  
I see you in pale green light

we could go walking  
when morning light wakens  
through the valleys  
we've been to at night

I let it go  
I let it go, oh oh oh  
I let it go, oh oh oh  
I let it go, go, go

the evenings saves me  
it comes without asking  
darkness lies soothing upon me  
I look at the devils  
the blood and the heartaches  
and all that I ever have been

I let it go  
I let it go, oh oh oh  
I let it go, oh oh oh  
I let it go, go, go

I let you lie here  
on these leaves here beside me  
with my toes opposite to your head

I let it go

# ONE OF A MILLION

(m. zoe) all rights reserved

can you make up a story of your own  
can you take your clothes off to the bone  
can you keep a beat all by yourself  
can you get what I don't mean  
did you ever want to leave your way  
and change to mine  
did you ever want to give away  
your precious time

it could be one -  
one of a million ways to go  
it could be so much different  
from what you used to know

can you spend a night in bed alone  
can you sometimes not go  
and answer your phone  
can you listen without asking  
did you ever know who you are  
did you ever want to leave this place  
to somewhere new  
did you ever want to give away  
your truth

it could be one -  
one of a million ways to go  
it could be so much different  
from what you used to know  
from what you used to know  
from what you used to want

# GLIDER PILOT

(m. zoe) all rights reserved

in a dark place  
I will be seeing  
in the ocean  
I will be swimming

in a cold night  
I will be waiting  
in a storm  
I will be standing

this time I will let my busy mind stand still  
this time I will let my busy mind stand still  
stand still  
stand still

on a bright day  
I will be breathing  
in the warm shade  
I will be resting

this time I will let my busy mind stand still

# SAVED

(m. zoe) all rights reserved

time has gone  
and I'm still here  
light has changed  
I stand and stare

I'm afraid to get lost  
I'm afraid to get saved  
I'm afraid to admit it  
while it hurts

I just can't help myself  
I don't want to keep up  
with your different ways  
but I want you to know  
that I can paint your face  
by heart - I do  
by heart - I do

you did come  
but I could not wait  
you were too good  
and I was too late

I'm trying to be brave  
trying to do what I say  
I'm afraid to admit it  
while it hurts

I just can't help myself  
I don't want to keep up  
with your different ways  
but I want you to know  
that I can paint your face  
by heart - I do  
by heart - I do

if I could ask  
a single thing  
if years turned to days  
could we try again
